

Over the past 5 years Temar has significantly increased sales and human resources: today they are recognized as one of the leaders in Italy in the Heat Tracing market.

Daniele and Roberto in Temars offices.

Ever since the very beginning the aim of the company has been to solve the problems of customers, supplying all the technical information and design data which will enable the customer to understand the various specifications and to make an informed decision.

The new Meeting room within Temars offices

Temar have always linked their name to Heat Trace Ltd through technical documentation and conferences, exhibitions and seminars.

In year 2007 Fiamma Pucci has joined the company taking up the marketing, financial, quality assurance and the order management process.

Last November Gaia Pucci also joined the company and she will take the role of Technical Director and referee for their Italian agents. Temar is currently building a team of agents and distributors in Italy to cover the whole of Italy in both industrial processes and building markets.

Storage and Stock room at Temar.

Temar has currently a team of 12 people and has increased the site area that now is around 200 square meters for the offices and 400 square meters for the stocks.

. . . . long may the success continue!
